Karachi, Sindh - 75290, Pakistan

SUMMARY

DevOps & Cloud Engineer with hands-on experience designing, deploying, and managing AWS cloud infrastructure and building automated CI/CD pipelines. Skilled in Terraform, Ansible, Docker, Kubernetes, ArgoCD, Jenkins and GitHub Actions. Strong scripting and automation skills using Python, Bash, and JavaScript.

PROFESSIONAL EXPERIENCE

• DevOps Engineer

March 2025 - June 2025

TeResol  (<https://www.teresol.com/>)

Karachi, Pakistan

- Managed 100+ Kubernetes nodes hosting 2,500+ microservices with HA multi-master architecture and Istio.
- Deployed EFK, Prometheus and Grafana to enable centralized logging and real-time infrastructure monitoring.
- Developed a DevOps Portal for multi-environment deployment validation, YAML diffing, and service visibility.

• Associate Software Engineer

October 2025 - May 2026

Devsynth Innovations  (<https://devsynth-innovations.com/>)

Karachi, Pakistan

- Build and manages Dockerized workloads on AWS EC2 and ECS with Terraform, boosting deployment by 40%.
- Implemented Jenkins CI/CD pipelines with GitHub, SonarQube, and Trivy, cutting manual deployment by 80%.
- Developed React Native mobile applications, enhancing UI responsiveness and user experience by 40%.

PROJECTS

• TERRAFORM EKS & VPC INFRASTRUCTURE PROJECT

October 2025 – Present

Tools: Terraform, AWS, Kubernetes, Git

- Provisioned an EKS cluster and custom VPC using Terraform, improving deployment speed by 40%.
- Automated Kubernetes infrastructure boosting cluster reliability by 30% and reducing compute costs.
- Developed reusable Terraform modules, cutting manual configuration errors by 90%.

• Cloud-Native Retail Application with GitOps

December 2024 – Present

Tools: AWS EKS, Terraform, Kubernetes, ArgoCD, Docker, Helm

- Deployed microservices on AWS EKS Auto Mode with multi-AZ VPC architecture, achieving 99.9% uptime.
- Implemented GitOps workflow using ArgoCD accelerating deployment cycles by 50%.
- Built modular Terraform infrastructure, improving provisioning reliability by 60%.

• MERN Contacts App with Docker + Jenkins

October 2025 – Present

Tools: React.js, Node.js, Express.js, MongoDB, Docker, Docker Compose, Jenkins, GitHub Webhook, JWT

- Built a full-stack MERN contact management system with JWT authentication, enabling secure CRUD operations.
- Designed GitHub Webhook-triggered Jenkins CI/CD pipeline, automating Docker deployments via Docker Compose, reducing manual deployment time by 80%.
- Implemented containerized multi-service architecture, enabling one-command deployment and improving deployment consistency by 90%.

• Personal portfolio website (<https://uzairsaeedi.live/>)

May 2024 – Present

Tools: Visual Studio Code, GitHub, GitHub Actions

- Built a responsive web application using React.js.
- Implemented GitHub Actions for automated deployment workflows, achieving 99.9% deployment success rate.
- Maintained Git version control with branching strategies to ensure fast, repeatable production releases.

EDUCATION

• Bachelor of Science in Computer Science

February 2022 - January 2026

Muhammad Ali Jinnah University

SKILLS

- **Containers & Orchestration:** Docker, Docker Compose, Kubernetes, Amazon EKS, Helm
- **Infrastructure & Cloud:** AWS (EC2, S3, VPC, RDS, ELB, IAM, CloudFront, ECR, ECS, NAT Gateway)
- **IaC & Automation:** Terraform (modules, VPC module, EKS module), CloudFormation, Ansible
- **CI/CD & Tools:** Jenkins, GitHub Actions, ArgoCD, Docker Hub, Git workflows (GitFlow/GitHub Flow)
- **Scripting & Development:** Python, Bash, JavaScript, React Native, Node.js, Java
- **Monitoring & Observability:** Prometheus, Grafana, CloudWatch, ELK
- **Databases & Dev Tools:** MySQL, MS SQL, PostgreSQL, RDS, Firebase, REST APIs, Git, Jira

CERTIFICATIONS

- Android Application Development
- Docker Training Course
- Node js
- Git Github
- Scrum Foundation Professional Certificate (SFPC)
- SQL for Data Science
- Jira Fundamentals
